ABOUT XALO PRO:

What is XALO Pro?

XALO Pro is a line custom-created for those who want to work a little harder, do a little more and recover a little faster. The all-natural formulas are designed for those who want to transcend their personal best.

What do GABA (gamma amino butyric acid) and Gotu Kola do in the body?

GABA is a neurotransmitter that provides a calming effect on the body.* Gotu kola is used to improve blood circulation to the brain.* Both of these ingredients are included in XALO Limitless to help your mind focus on the task at hand.

What is Glutamine and how does my body benefit from it?

Glutamine is the most abundant amino acid (building block of protein) in the body. During times of mental or physical stress, your body may need more glutamine than it can make. Glutamine is important because it removes excess ammonia (a common waste product in the body), helps your immune system function, and supports normal brain function and digestion.*

Do I have to be exercising to take XALO Reload?

No. XALO Reload can be taken at any time and benefits muscle recovery from normal wear and tear. This product may also benefit the elderly who experience muscle loss due to inactivity.*

What are the key ingredients in XALO Ignite?

XALO Ignite features an all-natural blend of L-Arginine, L-Orvaline, L-Citrulline, beet root powder and mangosteen. All support optimal body-oxygen circulation, cardiovascular health, endurance, sexual well-being and anti-aging.*
